Dr. Vargas and Dr. Garza provided additional information regarding UCC 10 - 13. The courses would apply only to Title V students with majors in Early Childhood Bilingual. This would serve as a pilot program. Enrollment in these courses would be only upon approval and the suggested plan would not be posted online or in the hard copy of the catalog. The 136 SCH required for the program would be justified since students would be certified in early childhood as well as bilingual education.
