Three semester hours.
This is a study of basic theories and principles of pedagogy with an emphasis on developmentally appropriate practices and instructional materials and strategies based on current research and the Learner-Centered Proficiencies. Lesson planning and a variety of authentic assessment techniques in specific content areas as specified by TEKS for children PK-12 will also be emphasized. Technology applications such as Angel, PowerPoint, word processing, scanning, and hyperlinking will be used to help students develop an e-portfolio and complete other assigned tasks. Field-based activities will enable students to link theory to practices through a variety of projects in age and developmentally appropriate school settings. A grade of "C" or better must be earned to successfully complete the course. Prerequisite: Admission to the College of Education and 2.7 overall grade point average. Course fee: $75.00.

Justification: Lesson planning is introduced and emphasized during EDCI 3301. Angel is currently being used and will continue to be used.
