Course: Add: x Delete: Change: Number Title
(check all that apply) SCH Description Prerequisite

If new, provide Course Prefix, Number, Title, SCH Value, Description, prerequisite, and lecture/lab hours if applicable. If in current catalog, provide change and attach page with changes in red and provide a brief justification. Please see reverse side of this page.

With this document, the Department of Professional Programs and more specifically the educational administration program is requesting authorization to deliver the next doctoral level course in a sequence of doctoral level courses through a doctoral program collaborative between Texas A&M University (TAMU) College Station and Texas A&M International University (TAMIU).

As such, this should be considered a request for the development and delivery of a new doctoral level course. The title of the course being proposed is EDAM 6349 Designing and Managing Quality Educational Systems. It is being developed with the intention that this course will count for a total of three semester credit hours (SCH). No authorization to deliver a lab in conjunction with this course is being requested.

Attached for the committee's review, you will find a proposed course description as well as a set of tentative student learning outcomes and additional relevant information.

Program: Add: Change: Attach new/changed Program of Study description and 4-year plan. If in current catalog, provide change and attach page with changes in red.

Educational Administration Program

EDAM 6349 Designing and Managing Quality Educational Systems

COURSE OBJECTIVES/STUDENT LEARNING OUTCOMES:

After successfully completing this course, students should be able to:

- 1.) Demonstrate the ability to analyze fundamental theory and principles of quality in the design and management of educational systems.
- 2.) Explain the function and role that fundamental theory and principles play in the design and administration of high performing and high quality educational systems.
- 3.) Articulate the function and role that processes play in improving educational organizations.
- 4.) Understand the function and role that process-based management plays in the design and management of high quality educational systems.
- 5.) Apply principles and techniques of continuous quality improvement for high performing educational systems.
- 6.) Identify the use of quality tools to understand, analyze and improve educational systems and processes.
