If new, provide Course Prefix, Number, Title, SCH Value, Description, prerequisite, and lecture/lab hours if applicable. If in current catalog, provide change and attach page with changes in red and provide a brief justification.

Remove EDEC 1308 from the Bachelor of Science in Interdisciplinary Studies Major in Early Childhood Education/Reading Specialization and replace it with EDEC 3364 Math and Science Principles for the Young Child.

Justification: After reviewing the new EC-6 standards, it was noted that the standards that are currently covered in EDEC 1308 are also covered within several other early childhood courses. As the degree currently exists, the students do not take a course relating to PK-6 math and science concepts. We want to ensure that we are preparing our students in the area of math and science, and that we are meeting the EC-6 standards.
