ACC 3310 Intermediate Accounting I – 3 credits

Focuses on the study of problems in financial accounting measurement, including an introduction to theory, present value concepts and applications, current assets, including cash, receivables, and inventory valuation problems. Prerequisite: ACC 2302

This revision in the course description is necessary to reflect the change in sequencing of the Intermediate Accounting courses. It is proposed that Intermediate Accounting be changed to three 3 credit courses instead of two 3 credit courses. Other regional universities offer Intermediate Accounting in a three-course sequence and we believe a three-course sequence provides a better fit for our student body. The proposed Intermediate Accounting III course (ACC 3330) will be substituted for an advanced accounting elective course in the undergraduate accounting degree program, thus, there will be no increase in the total number of credit hours for the degree. Further, the proposed change in the sequencing of the Intermediate Accounting courses will permit the elimination of the one-credit ACC 3100, *Accounting Lab*, course, which will allow the undergraduate accounting degree to meet the 120 hour limit in conformity with the university strategy.

If new, provide Course Prefix, Number, Title, SCH Value, Description, prerequisite, lecture/lab (hours if applicable) and **student learning outcomes**. If in current catalog, provide change, attach page with changes in red, and provide a brief justification.
