COLLEGE/SCHOOL/SECTION: College of Arts and Sciences

Course: Add: _____ Delete: _____ Change: Number _____ Title _____

(Check all that apply) SCH _____ Description _____ Prerequisite _____ Lab Fee: X

Lab Fee changes needed in Courses: ARTS 3323

Justification: A Lab Fee of \$30.00 needs to be put in place to help offset the costs of paying for models (see attached document for budget and further explanation). ARTS 3323 is a more-focused continuation of the fundamental elements of drawing the human figure, first taught in ARTS 2323. Both courses are designed to further develop ability in drawing through observation and interpretation of the human form. As such, the courses require the assistance of a model for each class. In ARTS 2323 or Life Drawing, the prerequisite of this course, we have required a lab fee of 30.00 dollars per student to help cover the costs of the model. It was an oversight on the part of the Art program that we originally neglected to account for the costs of the model for the upper-level continuation of this course (3323) when the course was originally submitted for approval in 2007. We propose that a 30.00 lab fee now be put in place for Intermediate Life Drawing (ARTS 3323).

If new, provide Course Prefix, Number, Title, SCH Value, Description, prerequisite, lecture/lab (hours if applicable) and **student learning outcomes**. If in current on-line catalog, provide change, attach page with changes in red, and provide a brief justification.

Justification: Lab Fee needs to added

Justification for Lab Fee for Arts 3323 (Intermediate Life Drawing)

This course is a focused introduction to the fundamental elements of drawing the human figure. This study is designed to further develop ability in drawing through observation and interpretation of the human form. As such, this course requires the assistance of a model for each class. In Arts 2323 or Life Drawing, the prerequisite of this course, we have required a lab fee of 30.00 dollars per student to help cover the costs of the model. It was an oversight on the part of the Art department that we originally neglected to account for the costs of the model for the upper level continuation of this course. I propose that a 30.00 lab fee be put in place for Intermediate Life Drawing.

Budget

Classes per semester requiring a model: 25

Class length: 2.5 hours

Monetary compensation for model: 15.00\$/hour

Cost of maintaining Model for one semester:

$$25 \times 2.5 \times 15.00 = 937.50\$$$

Maximum enrollment in Intermediate Life Drawing: 10 students

$$937.50 / 10 \text{ students} = 93.75 \text{ \$/per student}$$

$$93.75 - 30.00 \text{ (proposed lab fee)} = 63.75\$ \text{ (amount to be covered by the department)}$$

Even with the addition of the proposed 30.00 lab fee, the department is still covering over two thirds of the cost of maintaining the model.
