CSDO 5306 Language Issues and Intervention for Persons with Autism Spectrum Disorders
Description: This course discusses the communication and language issues posed by individuals on the Autism Spectrum. This includes intervention strategies for individuals having the entire range of disabilities caused by Autism Spectrum Disorders including programs which are currently used to assist those individuals through the lifespan.
Prerequisites: None

Student Learning Outcomes:

1. **Upon completion of this course the student will be aware of the language disabilities of individuals diagnosed as having Autism Spectrum Disorders (ASD).**
2. **Upon completion of this course the student will be able to differentiate between the language problems of children with severe/profound, moderate, and mild forms of ASD.**
3. **Upon completion of this course the student will be knowledgeable in the major language intervention programs used with individuals with ASD.**
4. **Upon completion of this course the student will be able to design an intervention program for an individual with ASD.**
5. **Upon completion of this course the student will be able to provide pragmatic language instruction that facilitates social skills.**

Justification: This course is being added to accommodate the addition of the new Master's of Science in Education Interventions for Autism.
