## CRIJ 4334: Administration of Justice

Description: This course covers contemporary concepts, principles and theories of administration of justice in criminal justice agencies. This course is intended to introduce the student to the views of prominent writers on theories of management and relate them to the field of criminal justice administration. A central intent of this course is enhance your ability to understand the art and science of organization and administration in criminal justice.

1. Describe the different characteristics shared by criminal justice organizations, employees and their interpersonal relationships.
2. Describe different models and typologies of organizations.
3. Describe the administration of law enforcement systems, the courts, and corrections.
4. Discuss the various legal issues and problems confronting criminal justice administrators, both from an administrative and an employee perspective.
5. Identify the public responsibilities and missions of criminal justice agencies.
6. Apply management theories and techniques to real criminal justice situations and decision-making.
7. Examine historical and contemporary views of criminal justice organization and management.
8. Discuss challenges to successful change in criminal justice organizations.
9. Articulate specific reasons why effective management and administration in criminal justice organizations is often difficult to realize.
