Revised System Engineering Courses

ENGR 2105 *Principles of Electrical Engineering Laboratory*. One semester hours. Laboratory course to accompany ENGR 2305. Laboratory exercises reinforce ENGR 2305 lecture material and place importance on scientific collaboration. Corequisite: ENGR 2305. Lab fee: $35.00

**Justification for Adding Lab Fee**

A laboratory fee of $35 needs to be added for this course. This course/lab requires several Electronic parts such as resistors, transistors, OP amps, capacitors, diodes, etc., to carryout students’ laboratory experiments. These parts need to be replaced and restored, which incur the costs of the buying products after each. Therefore, an average cost of $35 needs to be added as a lab fee for ENGR 2105 to purchase of different electronic products.
