Justification: To make the prerequisite more specific for MATH 5365.

MATH 5365 Topology Three semester hours. This is an introductory course in point-set topology. The course will include topological spaces, continuous functions, connectedness, separation axioms. Tychonoff’s theorems, para-compactness, complete metric spaces and function spaces will also be discussed. Prerequisite: knowledge equivalent to MATH 4335. Graduate standing and permission of instructor.
