TRAN 4361

Intermediate Spanish-English Translation
Three semester hours.

An orientation to the theory and practice of translation from Spanish to English, including consideration of cultural and morpho-syntactical problems. Students learn to apply translation techniques and strategies to resolve language-specific translation problems, while practicing the translation of longer texts in the areas of literature, medicine, education, politics, commerce and the law. Prerequisite: TRAN 4350 or 4351.

Justification:
We are changing the course prefix, renaming SPAN 4361 as TRAN 4361. The description has been slightly modified to avoid overlap with the Introduction to Translation courses (TRAN 4350 AND 4351). The prerequisites have been updated.
