EDCI 5305
Advanced Curriculum Issues in Education Advanced Curriculum Issues in the Elementary School
Three semester hours.
An introduction to the study of contemporary issues that impact the teaching and learning environment for PK-12 students and their teachers. Students identify critical issues in contemporary education, including how student diversity affects and influences instruction, and analyze those issues from a variety of perspectives. Students will examine the current trends and research in the elementary school curriculum. An action research project will be designed, executed, and reported. Prerequisite: Graduate standing.

Justification: Currently the MS in Curriculum and Instruction gives graduate students the option of taking EDCI 5305: Advanced Curriculum Issues in the Elementary School or EDCI 5311: Advanced Curriculum Issues at the Secondary Level. We would like to collapse these two (2) courses into one (1) issues course titled Issues in Education.
