COLLEGE/SCHOOL/SECTION:

BS/MS Proposed catalog amendment
(see http://www.tamiu.edu/catalog/current/undercoas.shtml#bm)

COMBINED BA/BS/MS DEGREE
Undergraduate students enrolled in the BA or BS in Mathematics (not the math BA with 8-12
certification or math BSIS with 4-8 certification) may pursue a combined BA/BS/MS program.
Students with an overall GPA of 3.2 or higher and a field GPA of 3.25 or higher (after completing at least
six 3000-4000 level SCH) may apply for admission to the Master of Science in Mathematics programs,
during their junior year. Students accepted into the program will begin taking graduate courses during the
senior year. Students must attain a B in their coursework to remain in and continue the combined program.

Students will need to complete all admission requirements to the program during their junior
year. This includes: Application to the University for admission to graduate study, submission of
an official copy of the students undergraduate transcript and two letters of recommendation to the Director
of Graduate Studies. One letter of recommendation must be from the student's faculty advisor and the
other from another faculty member. The GRE requirement for the Combined BA/BS/MS will be waived so
long as the student maintains continuous registration (fall and spring semesters) through completion of the
MS program. The GRE waiver applies to the Combined BA/BS/MS only. Interruption of progress toward
the degree may result in the requirement to reapply to the program and include meeting the GRE
requirement.

Students seeking the BA/BS/MS degree in Mathematics may count six SCH of graduate course-work
taken during the senior year toward both undergraduate and graduate degree requirements. Students
electing to complete the BA/BS/MS in Mathematics are eligible for either the thesis or non-thesis option.
