Course Description:

~~PADM 5310 Managing Information in the Public Sector~~

~~Three semester hours.~~

~~Focuses on the way information is managed and how it should be managed in public sector~~

organizations. Examines how innovation in information technology impact decision-making and implementation. Explores such current issues of e-government, e-voting, privacy, acquisition, security and GIS applications in the public sector. Course focuses on special issues in the management of information.

Justification: This course has been on the books for five years and never been offered. The MPA faculty will offer it as a Special Topics course instead.
