Course: PSYC 3303

Course Description:

PSYC 3303

Development of the Young Child

Three semester hours.

This course explores early childhood (birth through 6) development, focusing on cognition and social-emotional characteristics. Emphasis will be placed on major developmental theories, methods of studying child development, and the implications of children's characteristics for teaching and daycare. Prerequisites: PSYC 2301 & PSYC 2312, or permission of the instructor.

Justification: Course no longer needed because of streamlining of Psychology program.
