Texas A&M International University
Annual Institutional Effectiveness Review (AIER)
for Administrative or Educational Support Units

Unit Name:
Office of Graduate Studies & Research

Unit Type:
___ Administrative Unit  x__ Educational Support Unit

Assessment Period Covered:
March 1, 2008 to January 31, 2009

Unit Coordinator (Preparer of Report):
Suzanne Hansen-Alford

List Other Report Contributors (if applicable):
Dr. Jeff Brown

The annual review is directed at the following goals of the Texas A&M International University 2006-2010 Strategic Plan. Please list goals below:

1. Academics
2. Customer Service

Institutional Mission
Texas A&M International University, a Member of The Texas A&M University System, prepares students for leadership roles in their chosen profession in an increasingly complex, culturally diverse state, national, and global society … Through instruction, faculty and student research, and public service, Texas A&M International University embodies a strategic point of delivery for well-defined programs and services that improve the quality of life for citizens of the border region, the State of Texas, and national and international communities.

Administrative or Educational Support Unit Mission
The Office of Graduate Studies at Texas A&M International University provides leadership, coordination, and support services to the academic departments and colleges in the promotion and administration of the university’s array of (over 25) master’s programs and selected doctoral programs.

The graduate programs are committed to prepare outstanding scholars and leaders in the humanities and fine arts, physical, biological and social sciences, and in the business, education, and health care professions.

The graduate programs, in keeping with the university’s mission, maintain a focus on global study and internationalization, while concurrently delivering programs and graduates that improve the services and quality of life for citizens of the community and border region and the State of Texas.
Provide summary of the last cycle’s use of results and changes implemented
This statement should specify if the outcomes addressed were a continuation of previous ones, new outcomes, or modified versions of previous outcomes. In addition, the statement should include a concise analysis of the assessment data collected during the previous year, a brief explanation of actions taken to address specific outcomes, an evaluation of how these actions contributed to the improvement of the unit, and any recommendations formulated. Assessment data must be viewed and discussed by the unit during this process.

The outcomes addressed during this period were a continuation of previous ones. The criteria & objectives for the OGSR were met during this time frame; however, those for the Lamar Bruni Vergara Fund were not. There was no student response to the survey sent out on various occasions. The department plans to implement a new strategy to approach this group of students. We are considering new requirements to encourage this population to fill out the survey & provide us with feedback. This is the third year since the AIER implementation at TAMIU for the Office of Graduate Studies & Research. There were no new strategies implemented for the current period.

In the previous year, the criteria & objectives implemented were met. This was the second year of AIER implementation for the department, therefore; only minor changes were made to the survey questions. We also implemented a new strategy to try to increase the number of survey respondents.

Last year, all of the criteria and benchmarks were achieved. Given that last year was the second implementation of AIER for the department, we only made slight adjustments in our survey questions. We have also implemented a strategy in the hope of increasing the number of respondents to the survey.

List of unit-level outcomes
It is recommended that units rotate through their entire set of outcomes over a multi-year period. Units may focus on one or two outcomes each year, as deemed appropriate.
1. Customer Service
2. Staff Efficiency
3. Distribution & Awareness of Program Material

Section I: Planning and Implementation

Outcome(s): Identify the outcome(s) that will be focused upon this year.
Staff should provide timely, clear, & concise information to students about graduate programs & admissions process.

Methods of assessment to be used:
Identify and describe the type of assessment(s) that will be used and how the data will be obtained.
During this assessment period, has your unit used any of the following measures for assessment of outcomes? Indicate “Y” if currently being used; “N” if not currently being used but interested in using; and “NA” if not applicable.

**Criteria/Benchmark(s):**
Specify, if deemed appropriate to assess outcome(s). Criteria/benchmark(s) may be optional, especially if qualitative measures are used for data collection.

85 % of the respondents will evaluate their overall experience during the graduate application process with office of Graduate Studies staff as very satisfied or satisfied.
Section II: Analysis of Results

What were the results attained?
Describe the primary results or findings from your analysis of the information collected. Were the results used to improve the unit services or operations? Please specify:

Out of 15 respondents, 14 (93%) were very satisfied with the services and assistance provided by the Office of Graduate Studies Staff.

Out of 15 respondents, 13 (87%) were very satisfied and 2 (13%) were somewhat satisfied with the clarity & comprehensibility of the application materials.

There were no respondents to the Lamar Bruni Vergara survey this period.

What were the conclusions reached?
Include a brief description of the procedure used for reaching the conclusion(s) based on the evidence collected and describe the process used to disseminate the information to other individuals. For example, if the discussion took place during the annual retreat, include a summary from those deliberations using the Meeting Minutes template found on the Project Integrate web page at http://www.tamiu.edu/integrate/docs/Minutes-Template.doc. Once completed, submit the minutes to assessment@tamiu.edu.

The procedures used for reaching the conclusions listed in this report were attained through discussions at an office staff meeting. There was a decision to conduct surveys and gain the students feedback on our office processes & materials. Mrs. Virginia Morales prepared & disseminated the surveys to our student population. There was no office retreat during the last period.

Describe the action plan formulated. (The plan may be multi-year in nature.)
Based on the conclusion(s), describe the action plan to be implemented to improve or maintain unit services and operations, including resources needed and a timeline for implementation.

The OGSR will continue to use the same measurement tools currently in place until increasing the number of our respondents.

Section III: Resources

Resource(s) to implement action plan:
Describe the resources that will be needed to implement the action plan. Also indicate if the resources are currently available, or if additional funds will be needed to obtain these resources.

Funding
- X New Resources Required
- □ Reallocation of current funds

Physical
- □ New or reallocated space

Other
- □ Primarily faculty/staff time
- □ University rule/procedure change only
Provide a narrative description and justification for requested resources (include linkage to Strategic Plan – or Compact, if relevant)

1). Recruiting Efforts- $5,000-$10,000 in Travel monies and an additional $5,000-$8,000 in M&O for recruiting materials & promotional items.
2). Additional Travel monies for OGSR - Currently, OGSR does not have a travel budget/allocation. Therefore, the current extensive travel required for both Graduate Studies & Grant Resources staff comes out of the general OGSR M&O budget.

Identify proposed outcomes for the next assessment cycle:

Continuation of present outcome(s) – (Indicate reason for continuation):

The OGSR is a fairly new unit being at TAMIU for 3 years. Due to this, we have small quantities of comparative data. We are in the process of increasing our respondents and therefore are not ready to initiate new measurements instruments at this time.

New Outcome(s) – (List outcomes below):

Modification of present outcome(s) – (Indicate reason for modification):
