Results discussed at VPFA Annual Retreat and department staff meetings

NOTE: Submit all assessment documentation (i.e., surveys, rubrics, course exams with embedded questions, etc.) to the Office of Institutional Effectiveness and Planning.

Use of Results: Indicate whether criteria were met/not met and what changes, if any, have been identified based on the data collected?

Outcome 1
☐ Met  ☒ Not Met
Provide narrative: There was an improvement from 77% to 81%, but we did not meet the goal of 90% or better. This outcome will continue to be monitored during the next cycle.

Outcome 2
☐ Met  ☒ Not Met
Provide narrative: Surveys from previous years indicated the restroom facilities needed improvement, thus we decided to survey the university community on the cleanliness of their facilities separately from the rest of the campus. Since the 62% results of the survey were posted in October, we (1) installed larger trash cans in the women's restrooms, (2) increased the frequency of daily patrolling of the restroom facilities by the day porter, and (3) increased staffing of one additional day porter. Hopefully these changes will reflect an improvement on the next cycle of surveys.

Outcome 3
☐ Met  ☒ Not Met
Provide narrative: The 79% status still needs improving and once OIT installs the intranet capabilities, Physical Plant intends to show improvement on communication of our department’s services and procedures. This outcome will continue to be monitored during the next cycle.

Outcome 4
☐ Met  ☒ Not Met
Provide narrative: 83% shows continued improvement but still does not meet the 90% goal. This outcome will continue to be monitored during the next cycle.

How have these data-based changes improved your program/unit?
We have seen an increase in satisfaction in all areas and have raised our goals accordingly.
