The Annual Institutional Effectiveness Review for Academic Programs is directed at Goal 1: Academics of the Texas A&M International University 2006-2010 Strategic Plan:

Develop, maintain, assess, and improve academic programs, administrative/educational support services and student services, to admit, retain, and graduate students who achieve established learning outcomes designed to prepare them for success in their chosen careers.

Institutional Mission
Texas A&M International University, a Member of The Texas A&M University System, prepares students for leadership roles in their chosen profession in an increasingly complex, culturally diverse state, national, and global society … Through instruction, faculty and student research, and public service, Texas A&M International University embodies a strategic point of delivery for well-defined programs and services that improve the quality of life for citizens of the border region, the State of Texas, and national and international communities.

Academic Program Mission
To fulfill the University mission in offering baccalaureate programs in the arts, as well as the commitment to the preparation of students for leadership roles in professions related to the fine and performing arts. (1) The students’ knowledge and appreciation of culture, fine arts, social integration, and self-realization.

Provide summary of the last cycle’s use of results and changes implemented
Program faculty should evaluate the former cycle. This statement should specify if the outcomes addressed were a continuation of previous ones, new outcomes, or modified versions of previous outcomes. In addition, the statement should include a concise analysis of the assessment data
collected during the previous year, a brief explanation of actions taken to address specific outcomes, an evaluation of how these actions contributed to the improvement of the program, and any recommendations formulated. Assessment data—including actual samples of student work—must be viewed and discussed by program faculty during this process.

**Selected list of program-level intended student learning outcomes** *(It is recommended that programs rotate through their entire set of outcomes over a multi-year period. Programs may focus on one or two outcomes each year, as deemed appropriate.)*

1. Students completing the Bachelor of Music with All Level Certification will obtain satisfactory knowledge on musical/technical and pedagogical skills. These outcomes will draw on competency based standards derived from the most recent edition available of the Handbook of the National Association of Schools of Music (NASM).
2. Students completing the Bachelor of Music with All Level Certification will demonstrate satisfactory performance skills on at least one major instrument.
3. Students completing the Bachelor of Music with All Level Certification degree will be prepared to attain professional positions in music education. This outcome will draw on competency based standards derived from the TExES examination.

Section I: Planning and Implementation

**Outcome(s): Identify the outcome(s) that will be focused upon this year.**

Student Learning Outcomes 1, 2 & 3

1. Students completing the Bachelor of Music with All Level Certification will obtain satisfactory knowledge on musical/technical and pedagogical skills. These outcomes will draw on competency based standards derived from the most recent edition available of the Handbook of the National Association of Schools of Music (NASM).
2. Students completing the Bachelor of Music with All Level Certification will demonstrate satisfactory performance skills on at least one major instrument.
3. Students completing the Bachelor of Music with All Level Certification degree will be prepared to attain professional positions in music education. This outcome will draw on competency based standards derived from the TExES examination.

☐ Please indicate if the outcome(s) is (are) related to writing *(Write-On TAMIU!)*.

Yes

**Methods of assessment to be used:** The explanation should identify and describe the type of assessment(s) that will be used (e.g., survey, questionnaire, observation instrument, test, rubric to evaluate performance, standardized examination, action research, interviews, etc.), who will provide the information, and how the data will be obtained.

Local generated music exams and jury performance examinations.
Indicate when assessment(s) will take place:
Annual

Criteria/Benchmark(s): Specify, if deemed appropriate to assess outcome(s). Criteria/benchmark(s) may be optional, especially if qualitative measures are used for data collection.

Outcome # 1: Graduates will be measured using a departmental-administered comprehensive music examination in the areas of music theory and music history during the course of their degrees. Students must score at least 70% on the examination. Results will be compared from based standards derived from the most recent edition available of the Handbook of the National Association of Schools of Music (NASM).

Outcome # 2: Students completing the Bachelor of Music degree All-Level Certification will demonstrate their proficiency on a major instrument before a panel of music instructors (Final Juries). Results will be compared from based standards derived from the most recent edition available of the Handbook of the National Association of Schools of Music (NASM).

Outcome # 3: Bachelor of in Music All Level Certification graduates will be surveyed one year after graduation by the Department to gather supporting data concerning whether or not the student was able to gain employment in the music education field. Benchmark for employment success is at least 70%.

Section II: Analysis of Results

What were the results attained? Describe the primary results or findings from your analysis of the information collected. This section should include an explanation of any strength(s) or weakness(es) of the program suggested by the results.

As concluded by the departmental assessment committee, the data obtained still is limited as this degree was approved in 2004. To the date, 6 students have graduated with this degree. Their senior comprehensive examinations and final juries examinations however has shown a 100% success compared to the benchmark. The degree, however, was revised last year in order to comply with the 120 credit hours rule. It is recommended at least a three-year data from the time this degree was revised to obtain more comprehensive analysis of the results.

What were the conclusions reached? Should include a brief description of the procedure used for reaching the conclusion(s) based on the evidence collected and describe the process used to disseminate the information to other individuals. For example, if the discussion took place during the annual spring retreat, include a summary from those deliberations using the Meeting Minutes template found at http://www.tamiu.edu/integrate/docs/Minutes-Template.doc. Once completed, submit the minutes to assessment @tamiu.edu.
No conclusions have been reached as more data is recommended. The Department is still collecting data for at least five years in order to make a more objective conclusion on the analysis of the results.

Describe the action plan formulated. (The plan may be multi-year in nature.)
Based on the conclusion(s), describe the action plan to be implemented to improve or maintain student learning, including a timeline for implementation.

This degree is still revised and its curriculum recommend for change during the 2008-2009 school year. It is expected to obtain results and to analyze data in a five year timeline from the time the revisions will be approved.

### Section III: Resources

**Resource(s) to implement action plan:** Describe the resources that will be needed to implement the action plan. Also indicate if the resources are currently available, or if additional funds will be needed to obtain these resources.

- Funding N/A
  - ☐ New Resources Required
  - ☐ Reallocation of current funds
  - ☐ Current funding resources are sufficient.

- Physical N/A
  - ☐ New or reallocated space

- Other N/A
  - ☐ Primarily faculty/staff time
  - ☐ University/rule procedure change only

**Provide a narrative description and justification for requested resources (include linkage to Strategic Plan)**
N/A

**Identify proposed outcomes for the next assessment cycle:**

- Continuation of present outcome(s) – (Indicate reason for continuation):
  To collect sufficient data based on a five year plan from the time the revisions of this degree will be approved and implemented.

- New Outcome(s) – (List outcomes below):
  N/A

- Modification of present outcome(s) – (Indicate reason for modification):
  N/A
