Texas A&M International University
Annual Institutional Effectiveness Review (AIER)

Date Submitted 01-31-2008

Assessment Period Covered (2007)

Academic Program/AES Unit Master of Arts with a Major in Spanish.

Person(s) Preparing Review Drs. José Cardona-López, Kati Pletsch de García, and Agustín Martínez-Samos.

Provide summary of the last cycle’s use of results and changes implemented
Assessment was conducted in Fall 2006 and Spring 2007 by the Spanish Faculty. Outcome 1: Two students took the comprehensive exam and one passed it. Due to the small number of those who took the comprehensive exam it was impossible to attain the minimum 90% benchmark. Outcome 2: All of the students who finished their course work by Fall 2006 had an average score of “competent” or above. The overall benchmark was met. Outcome 3: This is a new outcome for the program effective Fall 2002. Spanish faculty have reviewed all the graduate student folders and have implemented a tracking system for graduate student status. This program will continue unchanged because at this point the numbers are too small to generalize results or changes over time.
