Provide summary of the last cycle’s use of results and changes implemented
Program faculty should evaluate the former cycle. This statement should specify if the outcomes addressed were a continuation of previous ones, new outcomes, or modified versions of previous outcomes. In addition, the statement should include a concise analysis of the assessment data collected during the previous year, a brief explanation of actions taken to address specific outcomes, an evaluation of how these actions contributed to the improvement of the program, and any recommendations formulated. Assessment data—including actual samples of student work—must be viewed and discussed by program faculty during this process.

During the former cycle, the outcomes addressed were an improved continuation of previous ones. The analysis of the assessment data, selected samples designed to corroborate the positive evolution of the program were collected from students who took SPAN 4399 senior seminar in the fall when seminar was offered, met overall the benchmark.

100% of senior portfolios scoring a “3” or above. The average for all the portfolios was a “3.20”, in the area of Discipline-Specific Writing. The program provides students with strong skills to clearly abs proficiently speak and write in academic Spanish.
