Provide summary of the last cycle’s use of results and changes implemented
Program faculty should evaluate the former cycle. This statement should specify if the outcomes
addressed were a continuation of previous ones, new outcomes, or modified versions of previous
outcomes. In addition, the statement should include a concise analysis of the assessment data collected.
during the previous year, a brief explanation of actions taken to address specific outcomes, an evaluation of how these actions contributed to the improvement of the program, and any recommendations formulated. Assessment data—including actual samples of student work—must be viewed and discussed by program faculty during this process.

The MA Spanish program continued providing student with a strong knowledge on literary devices in analyzing both Spanish and Spanish American Lit. Under this main consideration that supports the identified outcome for last cycle, and following the method of assessment, seven students submitted research papers and 86.0% of them were evaluated as "excellent" or "competent" by Spanish Faculty according to the Department rubric.

Tenured and Tenured-Track Full-Time Spanish faculty met on February 5, 2009 to evaluate the research papers submitted by the seven MA Spanish students. Subsequently, Spanish faculty met with Dr. Broncano, Chair, Department of Language and Literature to share results. The MA Spanish program considers these results very satisfactory because the benchmark has been exceeded.

The good result attained during last cycle has been used as one of the main factors to increase the promotion of our MA in Spanish among TAMIU’s students.
