For More Information:

Leiza Nochebuena
Phone: 956-326-2822
Office: WHTC 204A
E-mail:
lnochebuena@tamiu.edu

Responsibilities:

Assist the senior real estate managers in updating the market maps. Church's will focus on the markets that were identified as high priority (Tier 1 and Tier 2). These online maps show the target areas that we have identified as having a high potential to hold a profitable Church's Chicken. This work will require the intern to interface (usually over the phone and email) with real estate team in the field. They will learn the GIS environment and depending on their technical skill may even create services for our smartphone/table mapping application. There are a number of other areas that this intern will be involved in related to Real estate planning.
