

# Title of Article (Use “Title of Paper” style)

Author<sup>1</sup> Author<sup>2</sup> Author<sup>1</sup>

<sup>1</sup>Affiliation (“Affiliation” Style of this template )

<sup>2</sup>Affiliation (“Affiliation 2” style. Has extra spacing after the line)

## Abstract (use “Abstract” Style)

You will notice that the abstract is not numbered. Also, the first paragraph after a header is not indented. Use the “Body Text 1” style for the first paragraph after a header. Subsequent paragraphs are indented. The abstract should not be longer than 100 words.

**Keywords:** Use “keywords” style here

## 1. “Header 1” Style

All papers must be sent in **Word** and **PDF** format.

Papers should be formatted with double columns and should be single-spaced, 10 point Times New Roman font.

Also, do not change page size (US Letter) and the margins as they have been set in the template: Top-21 mm, Right-21.5 mm, Bottom-21 mm, Left-21.5 mm. Text should be justified.

Do not add page numbers to your paper. We will insert these later.

Do not add any headings or footers to your document.

Papers must be provided in Microsoft Word (.doc) and Adobe Acrobat (.pdf) format and cannot be larger than 5MB each.

Filenames should be as follows:  
lastname\_firstname.doc or  
lastname\_firstname.pdf.

## 1.1. “Header 2” style

Use the “Header 2” style, shown above, for subheads. Following is an example of a graphic and caption (“Figure” style).

All figures will be printed in black and white. You may use colour figures but it is your responsibility to check that they print correctly in black and white. The colour version will be kept in the Atlantis Press on-line version of the proceedings (if this is agreed upon).

Below is an example of a figure area and the related caption.

Fig. 1: Use “Figure” style here.

This style is “Body Text,” which we use for second and subsequent paragraphs. The following is an example of the “Bullet” style, which you may want to use for lists.

- “Bullet” style, bullet style, bullet style
- “Bullet” style, bullet style, bullet style

## 1.2. Mathematics

Use either the Microsoft Equation Editor or the MathType add-on for all math objects in your paper (Insert | Object | Create New | Microsoft Equation *or* MathType Equation). Make sure that your Equation Editor or MathType fonts, including sizes, are set up to match the text of your document.

First use the equation editor to create the equation. Then select the “Equation” markup style.

$$c = \underset{(a)}{\cancel{d}} \quad |e|$$
$$\underset{(b)}{=} \cancel{d} \quad e \quad (1)$$
$$\underset{(b)}{?} \sqrt{f}.$$

Put tab mark before and after equation.  
Separate from text by one empty row.

Number equations consecutively with equation numbers in parentheses flush with the right margin, as in (1).

## 2. References (This is “Header 1” style)

- [1] Use “**References**” style here.
