COLLEGE ADVISING INFORMATION

Advising is a distinct part of a student's educational experience. Discussions between the student and the college advisor should assist in exploring and clarifying education, career, and life goals. Students should consult with their college advisor before making decisions that may affect academic progress and success. Discussions with the college advisor may include: career decisions, TAMIU resources, dropping a class, withdrawing from school, selecting courses, and understanding degree requirements.

Course selection advising is required before registration for each semester or summer session, unless the student has an approved Petition for Web Registration Access signed by their college advisor on file in the Office of the University Registrar. These forms may be completed at any time in the student's career after 12 semester credit hours have been earned at TAMIU and submitted for approval.

Information about each college's advising schedule is posted in the academic departments and in the Office of the University Registrar. For further information, please contact the departments as listed below.

4. Application for graduation is not transferable to a subsequent semester. If the student does not graduate, the application will be canceled. A new application must then be filed at the Office of the Registrar for the new date of graduation. Graduation fee for diploma may be transferred to the new term.

Core Curriculum

At Texas A&M International University, the Core Curriculum introduces students to academic disciplines which form the foundation of human thought: mathematics, science, history, language, literature, the arts, and social and behavioral sciences. Our Core is conceived to open new areas of learning for our students and to foster skills necessary for success in higher education.

These requirements must be met by every student pursuing a baccalaureate degree at A & M International, regardless of his or her major. A specific course may be used to satisfy only one core requirement. Individual academic programs may require courses contained in parts of the University Core Curriculum to satisfy particular degree requirements. Students may be required to take extra courses if they fail to select these courses.

A student who successfully completes a 42- to 48-semester-credit-hour core curriculum at a state-assisted institution of higher education in Texas may transfer that block of courses to TAMTU. The student will receive academic credit for each of the courses transferred. A student transferring to TAMTU who has not completed the core curriculum will be required to complete his or her core curriculum as specified by TAMTU.

For more information, see the University catalog or call the Office of the University Registrar at 956-326-2250.

Fall 2004 Schedule of Classes

Fall 2004 Final Exam Schedule

1. A final examination is required in every credit course and is scheduled on a designated day at the end of the course. No exam may be longer than three hours. No student is exempt. However, no student will be required to take more than two final examinations in any one day. Any student who has three final examinations scheduled in one day has the option of taking all three or requesting that one be rescheduled. A request to have an examination rescheduled must be made no later than five Monday-Friday class days BEFORE the last day of classes (i.e., December 1). A student should make arrangements with professors as early as possible to ensure that rescheduling will not pose any problems.
2. A change in the time for a whole class must be approved by the Dean of the College and the Provost.
3. Final examinations for laboratory sections of courses are to be administered during the last scheduled lab period.
4. All final examinations are scheduled as follows:
