CHAPTER I

INTRODUCTION AND LITERATURE REVIEW

Standard margins on this page, and on all text pages, are 1.25" left, 1" right, top and bottom. The page number (Arabic) 1 is outside the margin, in the upper right corner. Number every page of the thesis in sequence through to the Vita, which is the last page.

If the thesis is written using the *chapter method*, the major heading consists of the chapter designation (CHAPTER I) and the title. Both are centered, in all capital letters. Number chapters using Roman numerals. Use one or two double spaces between chapter designation and chapter title.

If the *chapter title* is longer than one line, use spacing of text between the lines of the title (double space or space-and-a-half). Use same font size as other major headings (and bold if other major headings are bold). Be consistent with spacing between chapter title and text for all chapters (one or two double spaces).

The *journal model sentence* is a complete sentence with a period at the end (not a numbered footnote or footer), which goes at the bottom of page 1, within the prescribed margin. Separate this sentence from text with a one-inch horizontal line. Put the journal name in italics if journal names in reference section are italicized. Otherwise use regular.

This thesis follows the style of *Adult Education Quarterly*.
