COMING HERE November 4-6, 2011
To Sign Up, Call 877-968-7263

AFAA is the world's largest fitness and TeleFitness® educator. Since 1983, AFAA has issued over 300,000 certifications to fitness professionals from more than 73 countries around the world. Each year, health clubs, Universities, military installations and studios host over 2500 educational workshops worldwide. AFAA provides comprehensive written and practical examinations that help to ensure you possess the skills and knowledge necessary for a rewarding career! AFAA is accredited by the Distance Education and Training Council (DETC) which is an organization recognized by the Council for Higher Education Accreditation (CHEA) and the US Department of Education, meeting IHRSA's 2005 recommendation on accreditation for fitness certification organizations. AFAA is also proud to be a member of the Institute for Credentialing Excellence (ICE), and has been granted affiliate status with the National Board of Fitness Examiners (NBFEE).

Workshop Fee: \$342.30 (Normally \$489)

15 CEUs for AFAA certified professionals

COURSE OBJECTIVES:

Upon completion of AFAA's Personal Trainer Certification course, you will be able to:

- Design and implement an exercise program for specific client situations and goals (i.e. obesity, hypertension, muscle gain, sedentary, other), based on currently accepted industry protocols
- Assess and deliver appropriate response(s) for safety matters such as injury prevention, preexisting conditions, and emergency response
- Comprehend and integrate exercise science subject matter (i.e. physiology, nutrition, kinesiology, and more) at rest and during exercise
- Facilitate triage protocol within initial and ongoing assessments, health risk analysis, and liability concerns
- Define and describe program modifications for special populations (e.g. older adult, hypertension, diabetes, asthma, obesity, basic orthopedics, youth, pregnancy, and more).
- Communicate using verbal/non-verbal, open-ended vs. close-ended questioning, and cueing techniques to motivate individuals regarding exercise
- Incorporate professionalism in his/her practice by following the Code of Ethics and related legal guidelines

CURRICULUM COMPONENTS:

- Anatomy and kinesiology
- Fitness assessment testing procedures (3-minute step-test, sit-and-reach, push-up, abdominal crunch, and body composition screening with skin-fold caliper measurement)
- Nutrition fundamentals and weight management
- Special populations and medical considerations
- Listening, leadership, and motivational skills
- Exercise programming in the weight room
