University Library Committee

Committee Charge

Establishment:

The University Library Committee was established as a standing committee in the Faculty Handbook section on university committees. The Handbook does not state a charge, but specifies membership only as follows:

The University Library Committee. Membership in this committee will be by appointment by the Deans of each College, with the members being submitted through the Provost to the Faculty Senate for concurrence; composition will be one representative per Academic Department with the Director of the Library or his/her designate as an ex-officio member. The Chair is appointed by the Provost from the committee membership. (Section 2.30 B.2.d.)

Historic Charge:

Serve as an advisory committee to facilitate communication and cooperation between academic departments and the library concerning library resources, policies and services.
