Immigration and Homeland Security  
Presented by Dr. Richard Hartley

This webinar will focus on federal immigration offenses in the Southern District of Texas. Primary focus will be given to sentences or punishment of offenders as well as federal sentencing guidelines. Also, the link between immigration policies and homeland security will be discussed. Finally, this webinar will explore the ability of local, state, and federal law enforcement agencies to prevent illegal immigration.

Upon completion of the webinar, TCLEOSE hours may be earned.

Police Response Issues and Court Processing of Domestic Violence Cases  
Presented by Dr. Durant Frantzen

This webinar discusses two areas of evaluation research on domestic violence that have received a great deal of attention over the last decade. Part one examines the effect of case outcomes and recidivism patterns, with specific attention devoted to the effectiveness of civil protection orders. Research related to police response and discretion to arrest is reviewed in part two, which includes a review of state and federal case law and liability issues. The final section reviews implications from the research and discusses emerging issues surrounding the domestic violence problem.

Upon completion of the webinar, TCLEOSE hours may be earned.

Arms Smuggling  
Presented by Dr. Judith Warner

This webinar focuses on current information on arms smuggling over the U.S.-Mexico border. Government Reports, including the U.S. Government Accountability Office (2009) report, Firearms Trafficking: U.S. Efforts to Combat Arms Trafficking to Mexico Face Planning and Coordination Challenges, and the Congressional Research Service (2009) Gun Trafficking and the Southwest Border provide background information and statistics on firearms smuggling and efforts to combat it. The Bureau of Alcohol, Tobacco and Firearms (ATF), Immigration and Customs Enforcement (ICE) and Department of Justice provide further information on government programs to control arms and drug smuggling.

Upon completion of the webinar, TCLEOSE hours may be earned.

Community Mobilization  
Presented by Dr. Claudia San Miguel

This course discusses the philosophy and goals of Neighborhood Watch programs across the United States and further explains why Neighborhood Watch can be used to implement a community-based terrorism prevention strategy. It also explains contemporary roles for residents and the police who subscribe to the philosophy of Neighborhood Watch. The webinar also elaborates on various reasons why watch programs may not be so successful in reducing and/or preventing crime. Additionally, the webinar offers possible solutions to make watch programs more successful in achieving their intended crime prevention outcomes. Lastly, the webinar explores the utility of Neighborhood Watch in the fight against domestic and foreign terror attacks.

Responses to Bioterrorism and the Legal Ramifications  
Presented by Dr. Jeffrey Addicott

As terrorists are continuously expanding their capabilities and methods, turning to new and old tools to threaten death and chaos, the use of biological agents to cause death is so feared in the War on Terror that a new term has entered the lexicon—bioterrorism. The purpose of this webinar is to explore the realities of a biological attack and to examine the local, State and Federal responsibilities in preventing and reacting to the event—prevention and containment.

Upon completion of the webinar, TCLEOSE hours may be earned.

Youth Violence  
Presented by Dr. Claudia San Miguel

This webinar discusses theories that have been proffered to explain violence committed by youth such as sociological, biological, and psychological theories. The webinar further introduces some of the most pressing forms of youth violence such as violence that occurs within educational settings (e.g., schools). It also focuses on gang-related violence, bullying and teen dating violence. This webinar, moreover, details various prevention strategies and concludes with recent public policy changes that attempt to curb youth violence.

Upon completion of the webinar, TCLEOSE hours may be earned.
### Immigration Law
**Presented by Roger Enriquez**

The topics discussed in this webinar include: nonimmigrant visa for victims of violent crimes, temporary protected status, dream act legislation, special immigrant juvenile, eligibility for SIJS status, new developments for SIJ, and Violence against Women Act.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Military and Civilian Interrogation
**Presented by Dr. Jeffrey Addicott**

This webinar will demonstrate that all three branches of the United States government have strongly signaled that the United States is acting lawfully in applying the law of war to the conflict with Al-Qa'eda and associated forces. The webinar will also analyze topics such as: September 11, 2001, an act of war, the rule of law—use of force, NATO, congressional war-making power, presidential war making power, article III courts, and the employment of lawful violence.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Cyber-Terrorism
**Presented by Dr. Jeff Addicott**

This webinar is intended to provide a basic framework for understanding the threat of cyber terrorism and to explore the current state of preparedness from government and private industry perspectives. Further, the webinar includes topics such as: cyber-terrorism threats, prosecuting cyber attacks, government and private sector partnership, cyber as a weapon for war, and civil liability in the private sector.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Terrorism
**Presented by Dr. Jeffrey Addicott**

Topics included in this webinar are: terrorism and weapons of mass destruction, state-sponsored and state-supported terrorism, the diplomatic bang, sub-state terrorism, individual terrorism, Al-Qa'eda-Styled terrorism and militant Islam.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Confidential Informants
**Presented by Dr. Mitch Miller**

The topics discussed in this webinar include: informing in historical and contemporary contexts, a brief history of confidential informing, evolution of informer systems, police utilization of informants, and the informant typology.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Abnormal Behavior
**Presented by Dr. Bonnie Rudolph**

This webinar was designed for First Responders who will encounter, in the course of their work, a wide variety of “abnormal” behavior. Most first responders have had little or no training in recognizing and responding to abnormal behavior. This webinar addresses these needs.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

### Expectation of Privacy and Border Issues
**Presented by Professor Adolph Thomas**

This course is designed for the Texas National Guard and law enforcement officers in the state of Texas. This webinar discusses the following topics: border search, the near border search, and the functional equivalent of the border search.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.
**Workplace Stressors**  
Presented by Dr. Gilberto Salinas

This webinar is designed for the Texas National Guard and law enforcement officers in the state of Texas. This course will cover the effects of lack of healthy communication regarding work related stressors; issues such as boundaries, family dynamics, job burnout, and other resulting complications will be addressed. Additionally, the course will cover various effective methods of improving communication, prevention, and treatment of complications. The main focus of the discussion for this workshop will be in equipping the soldier and the officer with the tools necessary to identify problematic situations as they arise and begin taking steps in managing them in healthy and effective ways.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

**Communicating in a Crisis: Principles and Practices for First Responders**  
Presented by Dr. Bonnie A. Rudolph

This webinar serves as an introduction to crisis and risk communication. As the intended audience is made up of the men and women who serve on the front lines in crises as soldiers of the Texas National Guard, possible challenges will be presented in order to highlight practical suggestions and principles for communicating in crisis situations. With assistance from expert communicators, some communication skills that are especially helpful in crisis situations will be modeled.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

---

**Race, Ethnicity, and Crime**  
Presented by Dr. Richard D. Hartley

This webinar will examine the extant research to organize and synthesize their conclusions in an attempt to discern what, if anything, can explain racial disparities. A handful of studies have focused their examinations on differences regarding ethnicity, however, the majority of the research focuses on racial differences, namely black and white differences. As such, the bulk of this course explores differences across blacks and whites, with some mention of ethnicity where the research permits.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

**Police Canine Sniffs in Vehicle Stops and Residential Searches**  
Presented by Dr. Durant Frantzen

This webinar discusses federal appellate court decisions that have occurred since the *Caballes* decision dealing with police canine searches of vehicles, residential areas and curtilage. In this legal impact study, we review cases decided after *Caballes* through 2009 and present qualitative findings from case law in this area. The webinar also includes topics such as canines in the courts, *Illinois v. Caballes*, implications of *Caballes*, method, results, canines and vehicle stops, not the routine traffic stop, unlawful use of canines, residential areas and curtilage.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

**Overruled: The Admissibility of Evidence in Federal Court**  
Presented by Dr. Amy L. Poland

You suspect that the person you have been watching is transporting illegal drugs but don't have probable cause to search his bag. You approach and ask for consent to search his bag and he grants it. Upon opening the bag, you discover several large cans of what appears to be protein powder but may also be full of illegal drugs. You open the cans and find illegal drugs and arrest him. Can the evidence be used against him? It depends. It depends not only on when and where the interaction takes place but also on the court in which the defendant is tried. Several cases will be analyzed during this webinar that will demonstrate this idea.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

---

**The War on Drugs and the Texas Border**  
Presented by Dr. Richard Hartley

This webinar is intended to cover topics such as moral panic and the media, mandatory minimums, empirical research on mandatory minimums, judicial discretion, judicial discretion under the guidelines, departures from guidelines, departure rates, reforms and narcotics offenses, current study, data and methods.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.
**Overview of the Federal Criminal Justice System**  
Presented by the late Dr. Dean Champion

This webinar covers topics such as the federal law enforcement, the courts and corrections, and the federal court organization: structure and process, levels of court systems, federal court organization, court personnel, procedures leading to prosecution in federal court, and grand juries and prosecutors.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

---

**Human Trafficking and Smuggling**  
Presented by Dr. Claudia San Miguel

This webinar will explain both historical and modern day slavery, describe the different forms of recruiting human trafficking victims, and review the major contributing factors to human trafficking and global transportation patterns. Further, the webinar provides descriptions that characterize offenders, victims, and customers/consumers of human trafficking.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

---

**Legal and Strategic Aspects of Interviewing and Interrogation**  
Presented by Dr. Durant Frantzen

This webinar describes a study and its findings regarding the interrogation strategies, evidence, and the need for *Miranda*. The results of this study are based on self-report data and face-to-face interviews with Texas police investigators reporting their perceptions of factors affecting the disposition of suspect interrogations. Specifically, the study explored the nexus among interrogation tactics, corroborating evidence and case resolution. Accordingly, the webinar provides current insight into the nature of police interrogation.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.

---

**Community Resource Mapping**  
Presented by Dr. John C. Kilburn

This webinar is an interactive guide linking several internet sources that may help in designing a community resource map. Because there are various types of threats faced in different regions, the webinar will cover various types of planning resources as well as the steps to creating a map.

*This course is located at [www.borderstudies.tamiu.edu](http://www.borderstudies.tamiu.edu)*

Upon completion of the webinar, TCLEOSE hours may be earned.
