CSDO 5307 Augmentative and Alternative Communication

Description: This course discusses communication intervention and methodologies for individuals with severe to profound oral communication disorders. The course discusses both low and high technology interventions for children and adults who do not have the facility for verbal communication.

Prerequisites: None

Student Learning Outcomes:

1. Upon completion of this course the student will be aware of the scope of Augmentative and Alternative Communication (AAC).
2. Upon completion of this course the student will be able to differentiate between low and high technology resources and intervention strategies.
3. Upon completion of this course the student will be knowledgeable in the major language intervention programs used with individuals with various disorders including neurological, physical, and emotional disorders requiring AAC.
4. Upon completion of this course the student will be able to design an intervention program for an individuals needing AAC assistance.

Justification: This course is being added to accommodate the addition of the new Master's of Science in Education Interventions for Autism.
