EDCI 5311
Advanced Curriculum Issues at the Secondary Level
Three semester hours.
Centers around the development of a research interest in the broad field of curriculum and instruction within the framework of grades 6-12. Contemporary topics such as Differentiated Instruction (DI), building communities of learners, integration of technology into instructional situations, integrated learning units, character education, critical thinking skills, or other pertinent issues may be explored from the perspective of the secondary level. Emphasis will be placed upon the identification of an individual research interest. Prerequisite: Graduate standing.

Justification: Currently the MS in Curriculum and Instruction gives graduate students the option of taking EDCI 5305: Advanced Curriculum Issues in the Elementary School OR EDCI 5311: Advanced Curriculum Issues at the Secondary Level. We would like to collapse these two (2) courses into one (1) issues course titled Issues in Education. This is a result of the recent program review that was conducted. Various programs were compared and the five core propositions from the National Board for Professional Teaching Standards were taken into consideration when making this change.
