GENERAL REQUIREMENTS FOR GRADUATE DEGREES

Current version:

1. Character of Graduate Work: The principal aim of graduate study is to develop in the student the power of independent work. Consequently, the character of work expected of graduate students is different from that of less advanced students. A wide knowledge of the major subject and related subjects will be expected. To this end, the student will do assigned readings, attend lectures, and conferences, and make use of the library in equipping himself/herself to do effective study. In the A. R. Sanchez, Jr. School of Business, written and oral communications are important components of each course.

Suggested revision:

1. Character of Graduate Work: The principal aim of graduate study is to develop student's ability to engage in independent work. Consequently, the character of work expected of graduate students is significantly different from that of undergraduate students. To prepare students to engage in independent work, faculty members act as facilitators who develop graduate students into active learners. Graduate students are expected to demonstrate an in-depth knowledge and comprehension of the subject matter in their respective disciplines. Graduate students are also expected to demonstrate how to apply, analyze, synthesize, and evaluate their discipline specific body of knowledge through superior written and oral communication skills.

NOTE: This change has been approved by the Graduate Council.
