Pablo Arenaz Digitally signed by Pablo Arenaz Oke con Pablo Arenaz Diction Arenaz

Provost

Rationale:

The changes were made to address the disparity of score requirements for credit on the CLEP and AP exams There did not seem to be a consistent rationale for it and we were out of line with some regional universities. Departments affected by the changes were consulted. In most cases, the number of students challenging the tests were very small so that the subcommittee determined that standardizing the scores across all departments made the most sense and were in line with the national recommendations.

Upon Dr. Arenaz's request, the grade equivalencies for the Spanish AP scores were eliminated so that they would be in line with other subject areas. Dr. Duffy was in agreement.

TESTING CENTER

The Testing Center, University Success Center 201, coordinates university testing which includes credit by examination (CLEP), placement testing (THEA and COMPASS), departmental exams and other assessment programs.

CREDIT BY EXAMINATION

The University allows students to receive a maximum of thirty three (33) semester hours of credit by examination for specified freshman and sophomore level courses. The University awards credit for scores on certain tests listed in the Catalog. **Regulations** concerning credit by examination include:

Texas A&M University allows students to receive a maximum of thirty-three (33) semester hours of credit by examination for specified freshman and sophomore level courses. The University awards credit for scores on certain tests listed in the Catalog. Texas A&M International University also offers eligible students opportunities to earn credits by taking departmental examinations listed in the Catalog as authorized by the appropriate faculty. Students must be officially enrolled at Texas A&M International University to receive official credit with a grade of "CR". Students must select TAMIU as school recipient in order to receive credit to be posted on TAMIU transcript. The Testing Center does not report official CLEP scores to the Office of the University Registrar for posting on transcripts.

- Students may not receive credit by examination for courses that are prerequisites to courses for which they already have credit except with the approval of the department authorizing the examination and the Dean of the student's College.
- 2 Students may not receive credit by examination for courses in which they have been enrolled through the first class day.
- 3 Students will not be eligible for exam credit in a course if they have already taken a more advanced course in that area unless otherwise designated by the Chair of the department in which the subject is offered.
- 4 Students who are not successful on an examination may not retake it and must enroll in the course to receive credit.
- 5 Students must be officially enrolled at Texas A&M International University to receive official credit with a grade of "CR" or a letter grade. This grade option will be available only in certain disciplines.

ADVANCED PLACEMENT PROGRAM (**AP**) Examinations offered by the College Board Advanced Placement Program are administered during late spring by high schools. Students usually take the examinations after completing Advanced Placement courses although experience in an AP course is not required. Interested students should contact their high school counselors for information concerning registration and test sites. High school students and currently enrolled students should have the College Board forward their scores to the Office of the University Registrar. Advanced Placement scores of entering freshmen are generally received in late July. Students can receive a grade or credit only by Advanced Placement (AP) for the following courses with the score indicated:
