-----	----------	------	------	-----------------------------------------------------	---------------------------------	---

The committee asked that Dr. Lira contact Dr. Riggs to suggest adjustments to the BAAS program, i.e., reducing the technical field to 24 SCH and adding an advanced course as either an elective or in the composite field. This would allow the minor to maintain the general definition of 18 SCH with 12 advanced and meet the 45 SCH of advanced coursework required for the degree.

The meeting was adjourned at 9:30 a.m.
