Medical Needs & Emergency Procedures

As per System Regulation 24.01.06, All camps are different, but all camps should consider certain factors regarding campers, volunteers, and employees. Additionally, all camps require paperwork for campers, volunteers and employees. Review the list below to make sure you have taken precautions and are made aware of documents and contingencies to take into account.

Distribution and Security of Medicine:
CPM Directors must evaluate medical needs of children prior to child’s attendance to camp if participant requires special attention and or medicine distribution. No medicine will be distributed at CPM. Exceptions to consider, which must be outlined in Emergency Contact Form include, but are not limited to rescue inhalers and epinephrine pens for emergencies.

Minors with Special Needs:
Camp Directors must be made aware that children with special needs may require more involvement and supervision than other children.

Emergency Plans to Consider Internally
• List of emergency contacts for your camp
• Possibly program a fire drill with Risk Management so that campers are aware of the proper procedures. This consideration varies with the size of the camps.
• Fire Drills/ Exit Procedures per building need to be understood by staff before camp begins.
• Bomb Threats/ Campus Evacuations
• Bad Weather Days (i.e. Indoor activities or Camp Cancellations)
• Camp Directors Enroll in Dusty Alert

Emergency Contacts for the University
• University Police Department
  ▪ 956.326.2100
  ▪ 956.326.2911

Third Party Camps, Parents, and Non-Employee Staff
