

TAMIU ADVANCING RESEARCH & CURRICULUM PROGRAM

PRESENTS:

Dtale Python Tool Workshop: Cloud-Based Data Analysis Tool

**in-person workshop, limited seating

This workshop is for anyone who wants to learn more about data analysis software and statistical research methods. This live workshop will cover the Dtale cloud based data analysis tool for Python. It will be hosted by TAMIU Advancing Research and Curriculum's Data Scientist Roberto Torres.

WILL COVER:

- Data analysis tool Dtale (Python extension)
- Cloud-based data software and its use in a TAMIU computer lab.
- Data analysis tips using Dtale and Python

Wednesday Nov. 3, 2021 at 12 P. M.

Where: Dr. Billy F. Cowart Hall (CWT) Room 117

Presenter: ARC Data Scientist, Roberto Torres

Free for all TAMIU members.
