

## How to Embed an Echo360 Video into Blackboard Course

1. From your Content of Module Folder, click on Build Content. Select Item.

2. Enter a Name for the video/item. If the editing text box is not expanded, click the three dots on the far right of the tool bar.

## Create Item

A content item is any type of file, text, image, or link that appears to users in a Content Area, Learning Module, Lesson Plan, or content folder. [More Help](#)

\* Indicates a required field.

### CONTENT INFORMATION

\* Name

3. Next, click the plus sign icon to expand a menu of options.

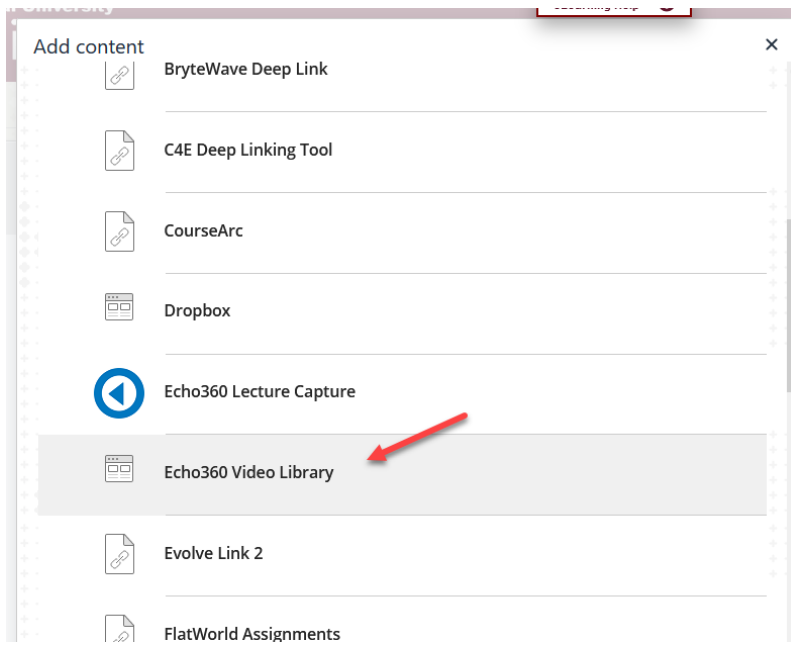

Text

For the toolbar, press ALT+F10 (PC) or ALT+FN+F10 (Mac).

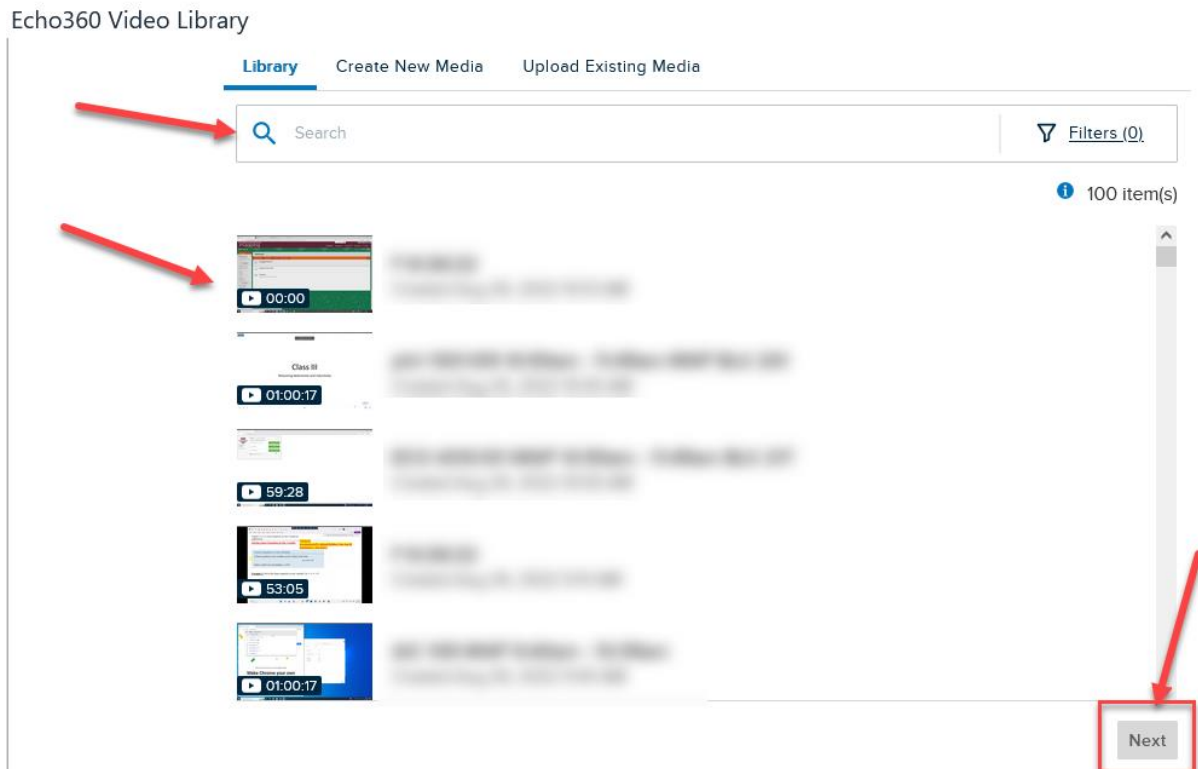

The screenshot shows the Microsoft Word ribbon with the 'Text' tab selected. The 'Font' section is expanded, showing options for Bold (B), Italic (I), Underline (U), and Strikethrough (ABC). The 'Paragraph' section is also expanded, showing options for Paragraph style, Font face (Open Sans, sans-serif), Font size (10pt), Bulleted List, Numbered List, Decrease Indent, Increase Indent, Link, and Unlink. A red arrow points to the 'More' icon (three dots) in the Paragraph section.

4. Scroll down to select Echo360 Video Library.

5. Search for the video by name if it doesn't appear immediately in your list or scroll down to browser for video. Click Next.

## 6. Click Insert.
