TAMIU is participating in the National Cyber Security Awareness Month program run by the National Cybersecurity Alliance (NCSA) to create awareness about cybersecurity. Each week in October, we will provide information and tips on protecting yourself at work and home. Our goal is to help you make the most of today's technology safely and securely.

This week's theme is Cybersecurity in the Workplace Is Everyone's Business. Whatever your place of business, creating a culture of cybersecurity from the breakroom to the boardroom is essential and a shared responsibility among all employees.

Today's message: Social Engineering.

You may also want to subscribe to OUCH! — The world's leading, free security awareness newsletter designed for technology users.

SAVE FOR A RAINY DAY.
