Accommodating Growth

Library Renovation/Academic Classroom-$50M

TRB request to renovate library through addition of instructional and support spaces

• Will provide larger lecture halls to handle the rapid growth—56.8% projected increase for fall 2010 over fall 2005 (the last year TRB’s were approved).
  • Will promote better student/faculty interaction by interspersing faculty offices currently housed in the library among classrooms.
  • Will create a support services building to move select support functions out of the library.
  • Will renovate non-library space for offices housed in the library.
  • Will expand library by repurposing vacated spaces for library use.
Possible Compliance with Appropriation Reductions

- Hiring freeze for virtually all vacant positions
- Replacement of full-time faculty with adjuncts
- Scarcity of qualified adjuncts in region would compromise academic programs

Effects of Appropriation Reductions

A 10% reduction in formula funding would:

• Require the elimination of numerous faculty and staff positions
• Require elimination of academic programs
• Require the University to downsize significantly
• Result in a substantial reduction in enrollment
Harvard Latino Leadership Initiative

TAMIU students joined 22 others from UC-Merced, Loyola Marymount-Los Angeles, U of H, and the University of Massachusetts–Boston as participants in the inaugural Latino Leadership Initiative class at Harvard University.
